Title: Petroleum Refineries in Foreign Trade Sub-zones

OMB Number: 1651-0063

Form Number: None

Abstract: The Foreign Trade Zones Act, 19 U.S.C. 81c(d) contains specific provisions for petroleum refinery sub-zones. It permits refiners and U.S. Customs and Border Protection (CBP) to assess the relative value of such multiple products at the end of the manufacturing period during which these products were produced when the actual quantities of these products resulting from the refining process can be measured with certainty. The Act also permits the products refined in a sub-zone during a manufacturing period to be attributed to a given crude introduced into production during the period, to the extent that such products were producible or could have been produced from quantities removed from the sub-zone if Industry Standards of Potential Production on a Practical Operating Basis (known as producibility) is utilized.

19 CFR 146.4(d) provides that the operator of the refinery sub-zone is required to retain all records relating to the above mentioned activities for five years after the merchandise is removed from the sub-zone. Further, the records shall be readily available for CBP review at the sub-zone.

Instructions on compliance with these record keeping provisions are available in the Foreign Trade Zone Manual which is accessible at:

http://www.cbp.gov/linkhandler/cgov/trade/cargo_security/cargo_control/ftz/ftzmanual.ctt/FTZManual2.doc.

Action: CBP proposes to extend the expiration date of this information collection with no change to the burden hours or to the information collected.
